## THE MINERS GAINING.

Accessions Being Made to the Strikers' Ranks.

### PEACE AND ORDER STILL PREVAIL

The Miners Satisfied With the Progress They Have Made—Favorable Weather For Campers—Arrangements Made For Another Big Meeting—Indiana Miners on the March.

PITTSBURG, Aug. 4.—The strikers still continue to gain accessions to their number from the New York and Cleveland company's men. Sandy Creek and Turtle Creek mines are completely idle, and the Plum Creek men are slowly but surely coming into line with the men encamped in the vicinity. Nearly half of the diggers at this stronghold of the company failed to go to work this morning, and a number of those who did go into the pit have promised to quit as soon as they can clean up the coal now lying in their rooms.

At Camp Determination it was reported that every one of the miners of the New York and Cleveland Gas Coal company who had gone to work was in sympathy with the movement, and only their signatures to a contract prevented them from staying out.

The miners are satisfied with the progress they have made. They claim that the offending mines are nearer to suspension today than they have been since the strike was inaugurated and are jubilant over the work they have done.

Peace and order seem to be the watchword of the strikers. They realize that they have the sympathy of the public and if they lose it their cause will get a black eye.

At the headquarters of the miners' officials in this city profers of aid are numerous, and the majority did not wish the public to know of their sympathy.

Good weather has been a great card for the campers. Just where most of them would find shelter in case of rain is a problem. So long as dry weather lasts the men can stand the exposure at night, but were a wet spell to set in it would necessarily force many of the men to desert the fields of operation. The roads now are dry, and while dusty, are nevertheless in fairly good condition for the sturdy pedestrians that tramp over them. Inclement weather would soon place them in the muddest kind of condition, and should this come, the men could not stand the extra hardship. There are close upon 2,000 strikers in camp at Turtle Creek, 350 at Plum Creek and 500 at Sandy Creek. If this number is not sufficient to deter the Dearthit miners from going to work, all these camps will be largely increased before the end of the week.

Arrangements are being made for the big meeting on the wharf Thursday night. It promises to be the greatest demonstration of the kind ever held in this city. Eugene V. Debs and Mrs. Mary G. Jones will be the stellar attractions among the speakers. Mayor Ford was asked by the men to preside over the meeting, which invitation he emphatically declined on the ground that he was acting neutrally in the strike question.

The announcement that Sheriff Lowry was in communication with the governor and that there was a possibility that the state troops would be ordered out had no particular effect in Camp Determination. The strikers all say there has been no occasion nor reason for discussing the coming of the troops. Sheriff Lowry's interview, aside from giving the information that he has communicated with the governor, gives no indication that he feels the troops are necessary at this time.

The district mining officials were in the city yesterday arranging the details for the continuance of the camps at the Dearthit mines. They were elated over the change that has been worked in the situation, and President Dolan is the authority for the statement that the entire New York and Cleveland Gas Coal company interests have been fought to a standstill.

The lull in the situation after the exciting events of the last 24 hours is the first opportunity the officials have had to size up the situation. As a result, each of the three camps of striking miners was placed under strict military government. This will be continued until the camps are abandoned; two members of the district executive board were placed at each camp. These men are to receive instructions from Dolan and Warner, and no further general move is to be made unless a general conference is held.

A large parade and meeting of strikers was held last night at Turtle Creek. Three carloads of Homestead steelworkers participated.

Dolan expects to get all of Dearthit's men out within two days, and will then start a march on the Westmoreland mines.

A serious phase developed last night when it was seen that a number of strikers were intoxicated. Dolan cautioned the men, and said the liquor had been introduced into camp by enemies. President Dolan issued a general order appointing Edward McKay general manager of Camp Determination and empowered him to make arrests and eject all persons under the influence of intoxicants trespassing on the premises of the camp. The order urgently requests all miners to respect the law in the future as in the past and strictly prohibits them from trespassing on the property of the New York and Cleveland Gas and Coal company.

During the afternoon Edward McKay and Paul Trimmer were arrested on charges of riot and unlawful assemblage. They were released on bail.

### STOP COAL SHIPMENTS.

President Ratchford Attempts to Keep Nonunion Coal Out of Chicago.

COLUMBUS, O., Aug. 4.—President Ratchford has decided to take determined steps to stop the shipment of nonunion coal into Chicago. For some time it has been known that coal from northwestern Kentucky was making its way into the Chicago market. After a consultation with President Knight of the Indiana miners President Ratchford decided to send that gentleman into Kentucky to stop this coal if possible. W. C. Webb, a former member of the executive board will assist in the campaign which will be pushed with vigor.

Information has been received by President Ratchford to the effect that Kansas coal is being reloaded into box cars at Kansas City and shipped to Chicago and the east. Plans are now being perfected by the miners' officials to stop this coal.

President Ratchford continues to get encouragement from the reports received from the several districts. President Farins of the Ohio miners was in consultation with President Ratchford during yesterday, giving a detailed report of the work in the Pocahontas district. He was ordered to return and continue the good work.

When asked in regard to his success in that district, President Farins said the men were coming out, but not so rapidly as he would like to see them. However, the miners' officials were satisfied and he was going to push the campaign there.

### FAIRMONT MEN IN CONFERENCE.

Organizer Rea Thinks That the Strike Is Nearly at an End.

FAIRMONT, W. Va., Aug. 4.—A secret conference of the miners of this district was held yesterday, at which all the miners were represented. Organizer Rea stated that the conference was very important, but he refused to give an account of the reports rendered.

Rea and Woods will leave here for Clarksburg and all the men near there will meet in a monster massmeeting Thursday. Rea says: "I am greatly encouraged. The conference yesterday makes it evident that the Fairmont men will come out, and as Clarksburg is already tied up, it looks like the strike is nearly over, if it depends on the men of this district."

Last night J. W. Rea and James Woods, vice presidents of the cigar-makers' union, addressed a large meeting at Palatine.

### INDIANA MINERS ON THE MARCH.

An Attempt Will Be Made to Close Every Mine in Southern Indiana.

PRINCETON, Ind., Aug. 4.—The striking miners of Davies, Pike and Gibson counties have taken the marching fever, and yesterday a movement began in which they will attempt to close every coal mine in southern Indiana. The march began among the Davies county miners. They invaded Pike county yesterday and have closed the mine at Rodgers and the Wooley mine at Petersburg. It is reported here that the strikers entered the Wooley mine and drove the men at work out like cattle.

It is the intention of the strikers to close the Carbon and Ayshire mines, east of Oakland City, but it is feared that they will encounter trouble at Ayshire, as the men there are determined to work.

The strikers have threatened to seize a Louisville and St. Louis Air Line freight train and take it to Huntington, where they will call the men out. They will then go down the Evansville branch on the Air Line and close all the mines in Warrick, Spencer and Perry counties.

Superintendent Holbrook of the Air Line has asked the sheriffs of the various counties through which his line passes for protection, and it is said the sheriffs have promised to do so. Trouble is feared.

### Railroads Feel the Effects of the Strike.

CLEVELAND, Aug. 4.—The effect of the soft coal strike in Ohio is best known by statements just issued by coal carrying roads, which indicate a movement of traffic much smaller than for the same period last year. The earnings of the Cleveland, Canton and Southern road for the third week in July were \$7,000 less, while those of the Cleveland, Lorain and Wheeling are nearly \$14,000 less. The Wheeling and Lake Erie shows a similar decrease. The Toledo and Ohio Central, which hauls West Virginia coal, did not fall far behind.

### Illinois Miners Quit.

MOUNT VERNON, Ill., Aug. 4.—Every miner employed in the local mines refused to return to work yesterday. They all called at the office and were paid off in full. The company is filling its contracts with coal shipped from Kentucky and Tennessee. A coal famine is probable here in a few days. The waterworks began the use of wood fuel yesterday, and it is most likely the mills will be compelled to do likewise in a few days.

### Little Coal Moving.

BELLAIRE, O., Aug. 4.—Less coal from West Virginia is going west over the Baltimore and Ohio and the Cleveland, Lorain and Wheeling this week than at any time since the strike began. One hundred cars a day covers all going over both roads. But 200 empty cars were taken to that field yesterday via Baltimore and Ohio.

### Alabama Miners Resume Work.

BIRMINGHAM, Ala., Aug. 4.—The Tennessee Coal, Iron and Railroad company has compromised with its Blue Creek miners and signed up a new wage scale at 28 cents a ton.

## HEADING OFF JAPAN.

The Stars and Stripes May Be Waving Over Hawaii.

### A PROTECTORATE DECLARED.

United States Minister Sewell Said to Have Such Instructions, and It Is Believed That He Carried Them Out on August 2.—The Story Is Emphatically Denied in Washington.

SAN FRANCISCO, Aug. 4.—The following from the correspondent of the Associated Press at Honolulu was received on the steamer Belgic yesterday:

"The arrival of the steamship Monowai from San Francisco, due here the 29th, means much for Hawaii. In official circles it is generally understood that United States Minister Mr. Sewell will carry out the instructions received in the last mail, said to be to this effect: If the Monowai brings word that congress failed to pass the annexation treaty, Minister Sewell is to declare a protectorate and raise the American flag."

"The American minister has had frequent consultations with President Dole within the past week and it is believed that they have agreed upon a program. The general impression here is that congress has decided to let the matter of annexation wait over until the regular session. The intervening months would be a long time for this country alone in view of the attitude of Japan and Secretary Sherman believed a protectorate of the United States is the only way to prevent possible hostile action on the part of the Japanese."

"As soon as the Monowai arrives it is understood the United States minister will notify this government of his intention to raise the American flag. Diplomatic equity will allow a day or two for answer, and it is expected everything will be in readiness to declare a protectorate Monday, Aug. 2."

"The foregoing information comes from a reliable source, and but few persons in Honolulu are aware of the near approach of the most important event in the history of the country."

### DENIED AT WASHINGTON.

The State Department and the Navy Department Will Not Confirm It.

WASHINGTON, Aug. 4.—It is declared positively at the state department that there has been no change in the instructions given either to Minister Sewell or to Admiral Bredeslee touching their attitude toward the Hawaiian question. The admiral's instructions were to protect American interests at all points and to establish a protectorate only in the event of serious disturbance or the commission of some overt act. It is not understood that the execution of this order was at all dependent upon the action or non-action of congress upon the annexation.

At the navy department an even more explicit denial of the story that the flag was to be hoisted Monday was obtained. It was said that Admiral Bredeslee's orders only contemplated a landing in an emergency to preserve the status quo, and that the landing in that case would not be for a longer period of time than was necessary to restore conditions to their former shape. It was said that as President McKinley had referred the whole matter to congress along with the annexation treaty, it would not be courteous to that body for the executive to act of its own volition until congress had expressed its will. It was further said that there was no truth in the oft-repeated story that the battleship Oregon was under orders to go to Honolulu.

### Secretary Sherman Silent on the Subject.

AMAGANZETT, L. I., Aug. 4.—Secretary of State Sherman was interviewed by a representative of the Associated Press last night at his cottage here. He would not discuss the report from Hawaii that United States Minister Sewell had been instructed to declare a protectorate over the island.

### McKinley Also Remains Silent.

HOTEL CHAMPLAIN, N. Y., Aug. 4.—President McKinley was shown the dispatch embodying the Honolulu advices in respect to a protectorate over Hawaii. Mr. McKinley read the telegram with care. He declined to make any comment upon it.

### JAPAN IN NEED OF MONEY.

The Government Finds Itself Seriously Embarrassed Financially.

TACOMA, Wash., Aug. 4.—The steamer Olympia, from the Orient, brings news that the Japanese government is seriously embarrassed financially owing to the rapid pace at which the nation has been going since the war with China. Civilization in every direction, particularly in building railroads, telegraph lines, new government buildings, improving harbors and strengthening the army and navy.

The treasury was not directly benefited by the big war indemnity paid by China, because it has been kept in England to pay for new warships and armament. Owing to the increased expenditures during the past year all the government reserve funds are exhausted.

### WORK OF A KENTUCKY MOB.

Farmer's House Fired on, His Cow Killed and His Barn Burned.

HARRISBURG, Ky., Aug. 4.—Tom Shelton, living near Eohon, was visited by a mob Monday night. Fully 50 shots were fired at his house when he refused to come out. Shelton escaped injury, but his cow was killed. Then

the men set fire to his barn and it was entirely destroyed.

Last week Shelton's wife was acquitted of the charge of setting fire to a blind woman's barn, and this is supposed to have angered the people who composed the mob. They wanted to drive the couple from the county.

Shelton, after the mob had gone, hurried to town and reported the affair. He recognized several of the men and they will be arrested.

### AT HIS OLD TRICKS.

The Sultan Insists Upon Putting Move Troops Into Crete.

PARIS, Aug. 4.—According to a dispatch received here from Constantinople, a division of the Turkish fleet has been ordered to sail for Canea, island of Crete.

If the statements contained in the Constantinople dispatch alluded to are correct, fresh trouble may be anticipated in the settlement of the Graeco-Turkish peace preliminaries. It has been reported for some time that the Turkish government was contemplating landing additional troops in Crete and on Thursday last the admirals in command of the foreign fleets in Cretan waters held a conference and decided to oppose by force the landing of any Turkish reinforcements in Crete. They notified Ismail Bey, the Turkish civil governor, of the decision arrived at. But the Turkish governor replied that he could not accept such a decision, apparently taking the ground that the porte would persist in its intention to reinforce the Turkish garrison in Crete.

### Peace Conference Progress.

CONSTANTINOPLE, Aug. 4.—The peace conference was in session three hours yesterday, and unexpected progress was made with the negotiations. It is said that everything has been arranged except the question of evacuation of Thessaly, which is to be considered at the next meeting. It is hoped that a solution of the whole difficulty is now imminent.

### Turkish Ironclads on the Move.

CONSTANTINOPLE, Aug. 4.—Three Turkish ironclads left the Dardanelles yesterday evening.

### TESTED HIS MACHINE.

William B. Felts to Fly From Pike's Peak to Colorado Springs.

COLORADO SPRINGS, Colo., Aug. 4.—William B. Felts, who recently made the statement that he would fly from the summit of Pike's Peak to Cameron's Cone and thence to Colorado Springs, has made a thorough test of his aeroplanes and flying apparatus. The daring young man had some doubt as to how the altitude might affect the working of his winglike mechanism, and to satisfy himself he took his aeroplanes to the summit of the mountain for a trial. The atmosphere was found to be of sufficient brace to support Mr. Felts' body, and he declares that on Sunday he will be able to carry out his promise to the letter.

The air line distance from Pike's Peak summit to Colorado Springs is about 13 miles, and the proposed trip is regarded as extremely hazardous.

### UP GO CIGARETTES.

Increased Revenue Tax Causes an Advance in Price.

NEW YORK, Aug. 4.—The Journal and Advertiser says: Cigarette manufacturers have decided upon an increase in the prices of cigarettes. A letter of notification is now going through the mails.

The advance in quotations is about 15 per cent on the whole list from Turkish to the common brands. Turkish cigarettes that were sold for from \$7 to \$17 will now cost the dealer from \$8.65 to \$20.30, according to the brand. Louisiana Perique advances from \$3.15 and \$5.75 to \$6.15 and \$6.50. Brands of domestic make which dealers bought for \$3.50 per thousand have been increased in price to \$4.10. The advance is ascribed by the manufacturers to the increase in the internal revenue tax.

### A Woman's Mysterious Death.

NEW YORK, Aug. 4.—Mrs. Lizzie Schurman was found dead in bed yesterday in the cottage where she lived with her husband, near Secaucus, N. J. There was a bullet in her head. The cottage is in a very lonely spot. Frederick Schurman did not notify the police of Hoboken, who are the nearest officials, until noon yesterday of his wife's death. He says he slept in another room. He declares he heard no shot. Schurman is a florist at Secaucus. About six months ago his wife created a disturbance at a house in Union Hill, N. J., while searching for her husband, whom she accused of infidelity.

### Collided With a Scorcher.

ST. LOUIS, Aug. 4.—Lee Merriweather, as well known as any man in Missouri, ex-labor commissioner and Democratic candidate for mayor of St. Louis at the last election, had a head-end collision with a scorcher while out wheeling, and it developed that his injuries are serious. His left ankle was broken. The bones protruded and dragged along the gravel for several yards. The surgeons advised amputation, but Mr. Merriweather refused, and owing to the intense heat, blood poisoning is feared, with fatal results. If he recovers it will be five months before he can leave his bed.

### Found Dead Beside the Track.

DUNKIRK, O., Aug. 4.—An unknown tramp was found dead along the Pennsylvania railroad track west of here last night. He is supposed to have been thrown from a freight train.

## INSANE FROM A SHOCK

Terrible Results of Coming in Contact With Electric Wire.

### SKILL OF PHYSICIANS BAFFLED.

A Mind Believed to Be Permanently Lost. Iron Manufacturers and Employees Reach an Agreement—A Boy Commits Suicide. Barns Burned—Property Destroyed by Lightning—Other Ohio State News.

ALLIANCE, O., Aug. 4.—Several weeks ago Judson D. Ellitt, a prominent citizen, while driving along Vine street after nightfall came in contact with a loose wire that some miscreant had thrown across the trolley wire of the Alliance Street Railway company. His horse dropped to the ground upon coming in contact with the electric current and Ellitt, not seeing the deadly wire and thinking the animal had stumbled, jumped from the buggy and attempted to help the dumb brute to its feet, when he received a shock which rendered him unconscious.

The animal was killed outright, but Ellitt did not seem to be seriously injured. A few days ago, however, he suddenly went violently insane and ever since it has taken the united efforts of five strong men to prevent him from harming himself and those around him. He raves like a wild beast, biting, kicking and pinching his attendants whenever an opportunity presents itself. His case baffles the skill of physicians, but it is believed that his mind is permanently unbalanced. Arrangements have been completed and he will be taken to the asylum for the insane at Toledo within a day or two. He has a wife and one child.

### SETTLED AT LAST.

Iron Manufacturers and Their Employees Reach an Agreement.

COLUMBUS, O., Aug. 4.—The war-scale question has at last been settled, and thus ends one of the longest conferences ever held between iron manufacturers and the Amalgamated Association of Iron and Steel Workers.

The amalgamated workers practically agree to everything proposed by the iron manufacturers. The last fight was the cut given to roughers, who work in exclusive steelhills. They were given a 10 per cent reduction and finally accepted.

President Garland, when seen, said he was sorry to see the workers reduced so much, but thought it was all for the best—that it could not be helped at this time.

Manufacturers say they will operate mills as steadily as possible, and some will start operations at once.

### Boy's Desperate Suicide.

AKRON, O., Aug. 4.—George Young, the 13-year-old son of a respected family of this city, committed suicide yesterday by hanging himself with a rubber hose. The determination of the lad to end his life was shown by the position the body was found in. The hose was a small one used for filling bottles and had stretched, but the boy pulled up his feet and slowly strangled to death. No cause has been ascertained why he took his life.

### Firebugs in a Barn.

WINCHESTER, O., Aug. 4.—Daniel Clark, a farmer four miles north of Seaman, was awakened about 4 o'clock yesterday morning by some one throwing a stone against the door. When he arose his large barn was enveloped in flames and ready to fall. It is supposed to be the work of incendiaries, as an empty coal oil jug and a lighted torch were found on the porch of his residence. Loss and insurance unknown.

### Two Barns Burned.

GREENVILLE, O., Aug. 4.—The barn of Mrs. Griffen, just west of the city, was destroyed by fire, including wheat, hay and oats stored therein. Six horses and cattle were also burned, loss \$3,000; insured for \$1,500. The barn of William Reck, four miles east, burned a few hours afterward. Loss \$2,000. In both instances the origin of fire is unknown.

### Will Fight No More.

MARYSVILLE, O., Aug. 4.—William Patterson, the decrepit old soldier who was found wandering about the country, died at the county infirmary and his remains were shipped to Chillicothe, the home of his sister, for interment. He was a veteran in the late war, having served in the Twenty-second O. V. I. and the Thirteenth Missouri V. V. I.

### Property Destroyed by Lightning.

PIQUA, O., Aug. 4.—During a heavy thunderstorm the large barn of John Dye was struck by lightning. Several head of cattle and horses perished in the flames. Eighty tons of hay and 100 bushels of wheat and all the farming implements, some of which were purchased this year, were destroyed. Loss \$2,000; insurance, \$300.

### Fifteen Bridges Washed Away.

EAST LIVERPOOL, O., Aug. 4.—The county commissioners met yesterday and took measures for rebuilding the county bridges damaged by the floods of the past two weeks. Fifteen bridges have been entirely washed away. The loss on these and the damage to others will aggregate \$16,000.

### Wayward Girl Returns Home.

BLANCHESTER, O., Aug. 4.—Goldie Sly, the missing Edenton girl, was found at the Central hotel here last night. She came here on an east bound train yesterday and said she had been at Milford.

ANOTHER Kentucky Republican editor has landed his game. This time it is Major James L. McCoy of the Pineville Courier, who has been appointed Timber Inspector at the Chippewa Indian Agency in Minnesota. McCoy was for several years in the Railway Mail Service before he fell from grace and became an editor. By the way, it has been said that this administration will take care of anything like equal; and so far it looks as though that policy is being carried out.—Public Ledger.

Wonder if Mr. McCoy and the other Kentucky Republican editors who have landed their game tried to keep the State convention in 1896 from instructing for McKinley.

### HALF MILLION

And Over Paid Into Kentucky for Those Bonds.

FRANKFORT, Ky., August 2.—The \$537,350 realized from the sale of the 500 bonds authorized by the last Legislature was paid into the State Treasury this morning, and the Treasurer at once deposited it in the Farmers' Bank of Kentucky and began checking against it to pay off the warrants known as the asylum warrants. The bonds were turned over to the Fidelity Safety Vault and Trust Company's representative, and this completed the deal.

### The One Sure Thing.

[New York World.]  
 The one thing absolutely certain about the new tariff bill is that it will increase the cost of living.

Sugar will cost more, clothing will cost more, lumber will cost more, china, crockery and earthenware will cost more, tobacco will cost more, soap, soda and salt will cost more. The Dingley bill does not reduce taxation on a single article of necessity. It increases taxation on nearly every such article. The revenue producing capacity of the new law is largely a matter of guess work.

TRY THE WEEKLY BULLETIN. Only \$1.50 per year.

PERCY, I. T., Aug. 4.—News has reached here from Altai, in the extreme southwestern portion of Oklahoma, that outlaws killed Quanah Parker, chief of the Comanche Indians and one of the most noted Indians of the territory. Chief Parker was returning from Texas with 500 members of his tribe, and was encamped at the mouth of North Fork creek. They were engaged in a game of cards, when the chief was killed by an outlaw and robbed of his money.

### HEBREWS

Expert to Acquire Palestine and to Establish a Limited Monarchy.

New York, July 30.—A dispatch to the World from London says:

"The representatives of the Baron Hirsch charities here seem to take very seriously the scheme of Dr. Theodore Hertzl, of Vienna, for the formation of an independent Jewish State in Palestine. It is said that the Hebrews are organizing in all parts of the world.

"The doctor intends first to send an exploring expedition to thoroughly overhaul the land from end to end, and to establish telephone, telegraph and other modern scientific conveniences before opening the territory to general settlement.

"To obtain sovereignty over Palestine, he says, will be easy, as the Turks will be glad to let it go. If it proves impossible to get Palestine, he will turn to Argentine.

"To confer on this point a congress will be held at Basle, August 29. The doctor says there is no doubt that this congress will be the redeemer of the Hebrews. There is no intention to follow Socialistic lines. He proposes a limited monarchy, like that of Great Britain.

"The capital of the Jewish company is to be \$250,000,000.

### ABUSED HIS WIFE

And Her Brothers Shut Him—Tragedy at Mt. Sterling.

Mt. Sterling, Ky., August 2.—As the result of a family quarrel Roger Parsons, of Carlisle, and his brother are in jail here, and their brother-in-law, Green Butler, is dying at his boarding house from a bullet in his spine out of Roger's pistol. Butler married Miss Emma Parsons several years ago, and they lived happily together until a few months ago, when Butler's wife left him on account, it is said, of his brutal treatment.

A few days ago Mrs. Butler brought suit for divorce, and Butler, who was at Hazel Green, training horses, hearing of it, came home immediately, got on a big drunk, went to his wife's home and threatened to kill her unless she withdrew the suit. As soon as her brothers heard of Butler's threat they hunted him up and shot him. Butler will hardly live through the night.

Mrs. Butler is a daughter of T. W. Parsons, well known in Eastern Kentucky.

### MACHINES REPLACE MEN.

Two Hundred Fruit Jar Blowers Thrown Out—Glass Jars As Cheap As Tin.

MUNCIE, IND., Aug. 2.—Ball Bros., among the largest fruit jar manufacturers in the world, are preparing to introduce machines for blowing fruit jars, and have sent notice to some of their employees that their services will not be needed after this month. The blowers say that 200 have received this notice.

The firm reports that not all the men blowers will be replaced at once, but that the machines will be gradually introduced. They claim that the machines will do better work than the men, and at one-half the cost.

It is expected that glass jars will be brought into competition with tinware, and that the demand will be largely increased, owing to the cheapness.

### ENGLAND AND SILVER.

Reopening of the Indian Mints Will Be Great Britain's Help in the Work.

LONDON, July 31.—The forthcoming issue of the National Review will contain a long article upon the success of the American Bimetallic Commission.

The article confirms what has already been cabled on this subject by the correspondent of the Associated Press and says: "It is now generally recognized by all except ostriches that Great Britain's chief contribution will be the reopening of the Indian mints, which all who appreciate the question must regard as a splendid subscription to the common pool."

### Scriptural Injunctions.

[Walter Champ, of Bourbon News, in Judge.]  
 "Brudder Johnsing," remarked Parson Jackson covetously, "dat's a powahful fine watah million yo' totin'."  
 "Deed it am pahson," replied the deacon. "But remember the scriptuahs—'Thou shalt not covet.'"

"I does remember," sadly answered the parson; but I also recalls de verses, 'De Lawd loveth a cheerful gibah,' an' 'He dat gibeth toe de poah lendeth toe de Lawd.' Brudder Johnsing I's a powahful poah man."  
 "Dat's true, pahson; but de Bible says dat de Lawd helps dem dat helps demselves. Dat's de way I got dis watah million. Cunnel Ryestraw's got a fine patch ob millions."

### Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

### PLACE TAKERS DYNAMITED.

Disastrous Attempt at Wholesale Murder at Hudson, Mass.

HUDSON, Mass., Aug. 4.—An attempt was made to blow up a section of the tenement house owned by the L. D. Apsley Rubber company, in which several of the workmen employed at the factory in the place of the striking help have been boarding. The explosion, it is thought, was caused by a dynamite bomb, which had been placed under the piazza of a tenement occupied by a Mrs. Clark.

The platform was demolished, portions of the under pinning were blown out and a large section of the floor of the house was torn up, causing damage amounting to several hundred dollars. The place where the trouble occurred was at the eastern end of a block some 300 feet long, containing nine tenements.

### Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

### Park Theatre.

An entire change of program was given at the Park last night. Seeker and Wilkes are certainly a clever pair. His equal as a German comedian has never been seen here. Felice proved to be a versatile little artist. Russell and Paul gave satisfaction in their sketch. The after-piece was excruciatingly funny. The whole show is good. Go out to-night.

## FATAL AFFRAY.

John Jones Shot Tuesday Morning By Ed. Robinson, and Died Last Night of His Wounds.

John Jones was shot Tuesday morning at 11 o'clock by Ed. Robinson and died at 10 o'clock last night of his wounds.

The tragedy occurred on the Blue Run pike near the old Pickett & Perrine mill on Lawrence Creek, and grew out of a sensational charge made against Robinson a month or so ago by Jones.

The parties are neighbors, and Robinson a few weeks ago was arrested on the charge of attempting to criminally assault Jones' wife. At the examining trial, Robinson was discharged.

Since then Jones, it is claimed, had threatened to kill Robinson.

Tuesday morning he was walking along the Blue Run pike with a Winchester rifle on his shoulder. According to one report, Robinson had concealed himself in an old building near the roadside, and as Jones came along Robinson leveled a shotgun at him through a crack or opening and ordered him to drop his rifle.

Instead of dropping it, Jones threw up his gun and the next instant was literally riddled with shot.

The wounded man it is said ran some distance before falling.

Over fifty shot penetrated Jones' stomach and bowels, several passed through his right lung, two entered near the heart and there were eight wounds on his arms. He lingered until last night at 10 o'clock, as stated above.

Robinson came to Maysville and surrendered to the authorities. He was committed to jail by Judge Hutchins, and the examining trial has been set for 10 a. m. Thursday.

Jones was nineteen years old. His wife, whom he married last March, is only fifteen.

Robinson is about thirty-five years old, married and has four children.

Later information is that Jones had made repeated threats against Robinson.

It is said when Robinson ordered Jones to drop his gun, the latter attempted to shoot, but the weapon failed to go off.

CARPENTER BROS. and John Hunter, of Millersburg, secured twelve premiums on their horses at the Richmond fair.

## A BIG SUM

Will Be Realized From the Franchise Tax. State Officials Certain of Their Authority.

FRANKFORT, Ky., Aug. 2.—The sums to be assessed against the railroad companies on a franchise tax will go to reveal that these big corporations have been assessed on the road bed and tangible property, while the greater amount of property owned by them has been escaping taxation altogether.

The Railroad Commission has performed its duty in thus assessing this property, but the stocks and bonds of the roads, upon which interest is paid and which represents money put into the roads has gone scot free.

These bonds generally sell at par and it is here the State Board of Valuation and Assessment will fix the big franchise taxes, and the members of the board are so confident of the authority under which they levy the tax, that they believe the litigation, which will evidently ensue will be entered into by the railroads with little hope of resisting the law.

The roads will be assessed exactly like bridge, gas, street railway and other separate franchises are assessed and an illustration will show how the board will proceed.

Take for instance, the Louisville Bridge Company, which reported to the board in 1896, \$2,500,000, representing capital and undivided profits. The tangible property reported in this amount was \$1,500,450, which, taken from the total in bonds, stocks, etc., left \$999,550, which represents the franchise, and, instead of paying taxes on \$1,500,450, representing the bridge proper, it paid on \$2,500,000, which included the \$999,550, or a tax of \$4,208.98.

There is fully \$2,500,000 in railroad bonds and \$150,000,000 in railroad stocks that has heretofore not been taxed that will be added as a franchise tax. The revenue, if realized from the roads, will equal enough to pay off the bonded indebtedness of the State and enable the Legislators to reduce the tax from the present rate of 5 1/2 cents on \$100 to about half.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most of all woman's weakness and particularly the weakness that most strongly influences the health of children, comes from derangement or disease of the distinctly feminine organs. Dr. Pierce's Favorite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pain of childbirth and insures the health of both mother and child.

## STEPHEN GIRARD BORD.

One year ago to-day "another star 'neath time's horizon dropped."

To gleam o'er unknown lands and seas; Another heart that beat for freedom stopped.—

What mournful words are these.

At 9 o'clock on Tuesday evening, August 4th, the "angel with the amaranthine wreath" passed at the threshold and entered the once happy home of Stephen Girard Bord, laid his hands upon that sacred altar, whispered a word that had a sound like death.

"And softly from that hushed and darkened room."

Two angels issued where but one went in.

Stephen Girard Bord was born at the Ford homestead in Mason County, Kentucky, in the year 1832. His father being a farmer, he likewise was brought up to that pursuit, but preferring a commercial life he has for years devoted his time and attention to merchandising. His business associates, and they have been many through all these years, pronounce him one of the best business men of their acquaintance, and honest almost to a fault. Though he received in his youth only a common school education, yet such was his nature to make the most of his time in every way, that by self-improvement his mind was so cultivated and broadened that young and old, lettered and unlettered alike sought his views and advice on questions of grave importance. Not only has he for so many years so faithfully and so nobly filled the double office of father and mother to a large family of children who so sorely mourn his death, but he was also thoughtful and considerate of all. His was a character that has left its impress on all who came within his presence. Tender-hearted, gentle, generous, of a lively temperament and with a social smile and a cordial grasp of the hand for each and all he is mourned by many. He answered the cries of the needy with material help as well as with tender compassion indeed.

"It was a spirit that to all the poor, Was kind as summer after rain."

Though for two years a dread disease had preyed upon his form yet with such patience did he bear his suffering that all who saw realized "would be from a cross to crown."

In every way he practiced as well as professed the teachings of our Savior. His was no biased faith, but like James A. Garfield he pleaded for the union of all God's people on the bible and the bible alone. The bible was his only creed and the passages therein his only guide. Among the teachings that he so dearly loved to study, the following were special favorites: "Do unto others as you would have them do unto you," and "Love your neighbor as yourself."

Of the lessons that Christ left for us he could truly say:

"They were my guide, my light, my all, They bade my dark forebodings cease; And through the storm and danger's thrall, They led me to the post of peace."

As Tuesday for years had been the busiest with him of the seven, it was fitting that he should be gathered to his reward on that self-same day.

His last words were, "I shall soon be better," and while loved ones sought in vain to give rest, he quietly breathed his last. The sympathy of all is with the heart-broken family, but while we mingle our tears with theirs we would have them remember, "He doeth all things well," and their father has only joined the innumerable throng across the silent river where peace and joy abound and care and sorrow enter not.

## STATUE OF COLFAX.

Citizens of His Old Home Will Prosecute the Work.

SOUTH BEND, Ind., Aug. 4.—A statue of the late Vice President Schuyler Colfax is to be erected in this city, his home, and where his family now live. This decision was reached at a meeting of the Commercial Athletic club, the leading organization of the city. A committee, consisting of C. B. Stephenson, A. L. Brick and Dr. S. L. Kilmer, was appointed to solicit funds.

The money will be raised in South Bend and requests for sums will be sent to Rebekah lodges throughout the Union. Mr. Colfax was the founder of Rebekah lodge, and it is believed lodges all over the country will respond. It is proposed that the statue shall occupy a niche on the Washington street side of the magnificent courthouse now building here.

## NELSON DINGLEY DEAD.

The Father of Congressman Dingley Passes Away.

LEWISTON, Me., Aug. 4.—Nelson Dingley, father of Congressman Nelson Dingley, Jr., died at his home in this city yesterday. He was 88 years of age. Death was due to a stroke of paralysis. Mr. Dingley had been in remarkable health up to Friday night, when he was stricken with paralysis. He rallied from the first attack, but a second stroke followed. Congressman Dingley and other relatives were summoned home on Sunday.

Mr. Dingley was born on the old Dingley homestead in Durham and was one of a large family. He was a careful and successful business man, most of his interests being in Auburn.

## Brutally Beat His Sister.

SHELBYVILLE, Ind., Aug. 4.—Ivory Law, a well known young farmer, returned to the home of his sister, Mrs. Linas McPherson, after a spree in this city, and was reprimanded by her. Law grew angry and resisted his sister's words by going to the barn and securing a whip, with which he assaulted his sister. The woman was frightfully injured and will die. A crowd, headed by the woman's husband, is hunting for Law.

## William Mauck Killed by a Mailhook.

COLUMBUS, Ind., Aug. 4.—William Mauck, a passenger on train No. 19 of the Pennsylvania line, was struck and instantly killed by a mailhook at Waynesville yesterday. The top of his head was torn off. Mauck's home was at Jeffersonville, Ill., and he was on his way to Elwood in search of employment.

## LOUISVILLE TOBACCO MARKET.

Offerings Last Week Were Large—Big Improvement in Prices in the Past Few Months.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 3,329 hhds, with receipts for the same period 3,682 hhds. Sales on our market since January 1st amount to 107,637 hhds. Sales of the crop of 1896 on our market to this date amount to 91,956 hhds.

The offerings on our market have been large again the past week, with some increase in the percentage of rejections. The buyers have been very much more discriminating than usual with regard to condition, and the range of values has been weaker for all tobacco not only in fanned or soft condition but for all tobacco in doubtful order. Good to fine grades in perfect condition have sold during the week at prices ranging from \$15 to \$22. The common to medium grades of the full bodied red type are in active demand and at prices fully as high as at any time during the season, but the very common grades, both red and color, are a few bids lower than previous week.

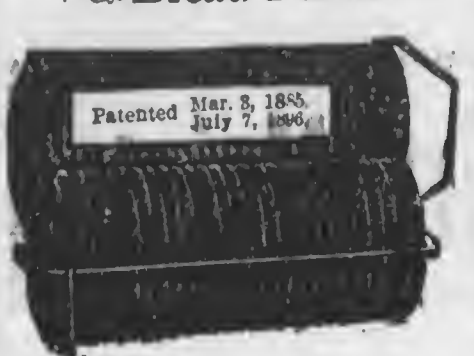

We feel like congratulating the growers of tobacco on the very great improvement in prices within the past few months. The great Kentucky staple, which for so long sold at prices unremunerative to the producer, is now commanding values which offer fair reward for the labor of production, and there is every reason to believe that the crop now on the hill will be marketable at satisfactory prices, and there is therefore every reason for the farmers to give the best possible care and attention to the growing tobacco crop. The great devastation caused by the worms last year should not be forgotten and tobacco growers should begin in time to watch and fortify themselves against this pest before they appear in unmanageable numbers.

The following quotations fairly represent our market for burley tobacco (1896) crop:

Trash (dark or damaged).....\$ 2 00@3 00  
Common color trash.....3 50@5 00  
Medium to good color trash.....5 00@8 00  
Common lugs, not color.....4 00@5 50  
Common color lugs.....5 00@8 00  
Medium to good color lugs.....8 00@10 00  
Common to medium leaf.....12 00@16 00  
Good to fine leaf.....16 00@18 00  
Select wrapery leaf.....18 00@24 00

Big premiums, big fair and big crowds of people at Ripley, Ohio, fair, August 24th to 27th, 1897.

## THE GRAIN MARKET.

New York.

Aug. 3.—Wheat prices were elevated still more to-day by a combination of very strong cables, large export orders and general local and outside buying. September, in the early afternoon, sold up to 85 1/2c, which was the high-water mark, thus far.

St. Louis.

Aug. 3.—1:30 p. m.—Wheat—Cash, 81c, bid; August, 82 1/2c, bid; December, 83 1/2c, Corn—Cash, 32 1/2c, bid; September, 27 1/2c, asked.

Baltimore.

Aug. 3.—Wheat—Cash, 81 1/2c; August, 82 1/2c; September, 83 1/2c; Corn—Cash, 32 1/2c; September, 27 1/2c, bid.

Cincinnati.

Aug. 3.—Firmness was general in grain circles to-day. Trade was fair and offerings were heavy. Wheat was scarce and in fair demand at higher prices. Oats were in heavy supply, and the market ruled active and firm. Corn was very quiet at previous prices. Wheat—Sales: 1 car No. 2 red, track, 75c; 1 car No. 3 red, track, 73c; 125 bu sample red, landing, 72c.

Mr. R. W. McClelland, of Mt. Sterling, who is here buying wheat, was paying 70 cents a bushel Tuesday, delivered in cars, and secured but little at that. Sixty-five cents is the price offered at the Magnolia Mills and 70 cents at the Limestone Mills to-day.
